MANUKA RESOURCES RETRACTION AND CLARIFICATION

Manuka Resources Limited (MKR or Company) has received guidance from the ASX that a recent statement in the announcement dated 23 January 2024 in which Manuka's Executive Chairman was quoted as stating "...Estimates prepared by management based on the 2013 TTR PFS (with updates and using current iron ore and currency pricing) target a project NPV of USD\$1.8B.." may constitute forecast financial information.

The statement was intended to be conceptual in nature only and the Company does not consider, at this stage, that it has a reasonable basis to disclose the project NPV as interpreted under the ASX Listing Rules.

The Company retracts the above statement and investors should not rely on this statement as a basis for making investment decisions regarding MKR shares.

This announcement has been approved for release by the Board of Directors of Manuka Resources Limited.

About Manuka Resources Limited

Manuka Resources Limited (ASX: MKR) is an Australian mining and exploration company with key assets located in the Cobar Basin, central west New South Wales. In addition to its recent acquisition of Trans-Tasman Resources Limited owner of the Taranaki VTM Project, it is the 100% owner of two fully permitted mining projects, one gold and one silver, both within the Cobar Basin, which include the following:

- Gold - Mt Boppy Gold mine, 48-person mine camp and neighbouring tenements, hosting an existing open pit mineral resource¹ and combined ROM, waste and tailings material all of which lend themselves to upgrading through screening. The Company has commenced a screening and gold recovery project, processing the product at its Wonawinta plant. Manuka also awaits the outcome of its forthcoming exploration program to determine as to whether the future for mining any Mt Boppy extensions will be as an underground or open cast mine;
- Silver - Wonawinta silver project, with mine, 84 person mine camp, processing plant and neighbouring tenements. Previously renowned as the largest primary producer of silver in Australia, the mine hosts a significant JORC resource². The Wonawinta processing plant has a nameplate capacity of >850,000 tonnes per year (which the Company now sees expanded to >1.0Mt/yr.

The Taranaki VTM (vanadium titanomagnetite) Iron Sands Project recently released its maiden vanadium resource³ which ranks it as one of the largest drilled vanadium projects globally (as well as a 3.2Bt JORC resource). The Project is located outside New Zealand territorial waters (within its EEZ or exclusive economic zone) and has a granted mining licence, MP55581 permitting production of 5Mt/a. The project is located in waters ranging between just 20 – 40 metres depth. The Project sits in the lowest quartile of the iron ore production cost curve. The Company awaits the reissuance of its Environmental Approval before completing its Bankable Feasibility Study.
