

ASX Announcement

07 December 2020

ASX: MKR**MARKET SENSITIVE**

Severe Weather Event at Wonawinta Site

Manuka Resources Limited (“**Manuka**” or the “**Company**”) advises that at 4.20 pm Saturday 5th December 2020, it encountered a severe, localised weather event with exceptionally strong winds and heavy rain. The Company is very pleased to advise that there were no injuries arising from the storm.

The storm did however cause damage to certain machinery, as well as substantial damage to auxiliary housing and shedding infrastructure, which at first estimates is expected to cost in the order of A\$1.0m to repair.

The Company expects the plant to be down for around four to five days while repairs are completed and has already located replacement equipment for anything identified as potentially damaged, and where spares are not carried on-site.

The Company further wishes to advise that all its insurance policies are current, and the relevant parties have been advised of the incident.

This announcement has been approved for release by the Board of Directors of Manuka Resources Limited.
